Balance	How the elements of art relate to each other to create an art work that is pleasing to the eyes

Key knowledge – Symmetry & Asymmetry

Symmetry - A type of balance where the two halves of artwork mirror each other

Symmetrical

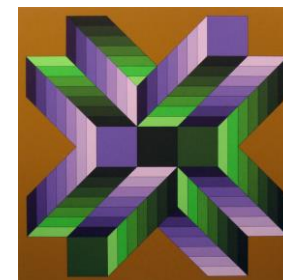

Asymmetrical

Asymmetry – A type of balance where the two halves are not the same but appear to have an equal visual weight

Key knowledge – Famous artists

Victor Vasarely was a famous artist known for his “op” (optical) art. The artists use shapes, colours and patterns in special ways to create images that look as if they are moving or blurring.

Key knowledge – techniques

Hatching An artistic technique used to create effects by drawing closely spaced parallel lines
