### Key knowledge – Ojo de Dios

The **Ojo de Dios** or **God's Eye** is a traditional weaving art from Mexico. The **God's Eye** is symbolic of the ability to see or understand that which is unknown. The four points represent the four elements water, fire, earth and air.

### Key knowledge – African textiles

In Africa, textiles are also used as a form of identity with each African tribe having their own unique patterns that are woven. Kings would request many types of cloths to show their prestige and importance.

### Key knowledge – Weaving

- 1) fold the one sheet of paper in half
- 2) draw vertical guide lines onto the paper. Then cut evenly spaced slits starting from the folded edge and stopping about 1 inch from the opposite edge.
- 3) After folding the paper. Cut coloured paper strips that are longer than the length of your square's side.
- 4) take one paper strip and weave it across the slits, going over and under the slits.
- 5) move the woven strip to the top and start with the next one. Weave the second strip in an opposite pattern at first. If your first strip went over and under the slits, the second strip should go under and over the slits.
